SUMMARY

Highly motivated B.Tech graduate (2025 batch) with proven skills in the full Software Development Lifecycle (SDLC), including design, build, test, and implementation, utilizing Agile methodologies. Possesses a strong aptitude for analytical problem-solving and delivering robust, optimized technology solutions that align directly with business and client requirements. Eager to leverage versatility and take ownership of successful solution delivery.

EDUCATION

Vels Institute of Science, Technology and Advanced Studies • Chennai, India 2021 - 2025
B.Tech Computer Science and Engineering • CGPA: 7.2

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, HTML, CSS, Python
- **Frameworks & Libraries:** React.js, Node.js, Express.js, Tailwind.CSS
- **Databases:** MongoDB, MySQL
- **Methodologies & Tools:** SDLC, Agile, Git, GitHub, Postman, APIs, Testing, Debugging
- **Soft Skills:** Analytical and Problem-Solving, Communication, Teamwork, Ownership

CERTIFICATIONS

- Java Fundamentals - DataCamp
- JavaScript - Guvi
- SQL Fundamentals - DataCamp
- Full Stack Development - Guvi

EXPERIENCE

Frontend Developer Internship - All India Translink Company April 2024
Chennai, India

- **Designed, built, and configured** user-facing applications (interactive web interfaces) using HTML, CSS, and JavaScript.
- **Improved website performance and cross-browser responsiveness.**
- **Participated in cross-functional collaboration** to integrate RESTful APIs.

PROJECTS

Stock Prediction Web-App using Machine Learning
Python, Streamlit, LSTM, Finance API

- **Designed and implemented** an LSTM-based stock prediction system using historical market data.
- **Integrated real-time financial data** using Yahoo Finance API.
- **Developed an interactive web application** using Streamlit for visualization and prediction results.
- **Improved prediction accuracy** through preprocessing and MinMax scaling techniques.

RESERVE - Restaurant Reservation and Review Platform (MERN Stack)
React.js, Node.js, Express.js, MongoDB, Socket.io, Razorpay

- **Developed a full-stack restaurant reservation platform** enabling users to discover restaurants, view menus, read reviews, and reserve tables in real time.
- **Implemented real-time table availability** and reservation management using Socket.io to prevent overbooking.
- **Built role-based dashboards** for Admin, Restaurant Owners, and Users with JWT authentication.
- **Integrated Razorpay payment gateway** for advance reservation payments with real-time payment status updates.
- **Developed review and rating system** allowing users to post dining feedback and restaurant owners to respond.
- **Implemented advanced search and filtering** based on cuisine, ratings, and location.

LANGUAGES

- Tamil (Native), English (Fluent), Hindi (Fluent)
